

**Global Convergence of Threshold Stability (Percentile Bootstrap)**  
(Mean of IQR-to-Median Ratios across all metrics; n = 25 trials per step)

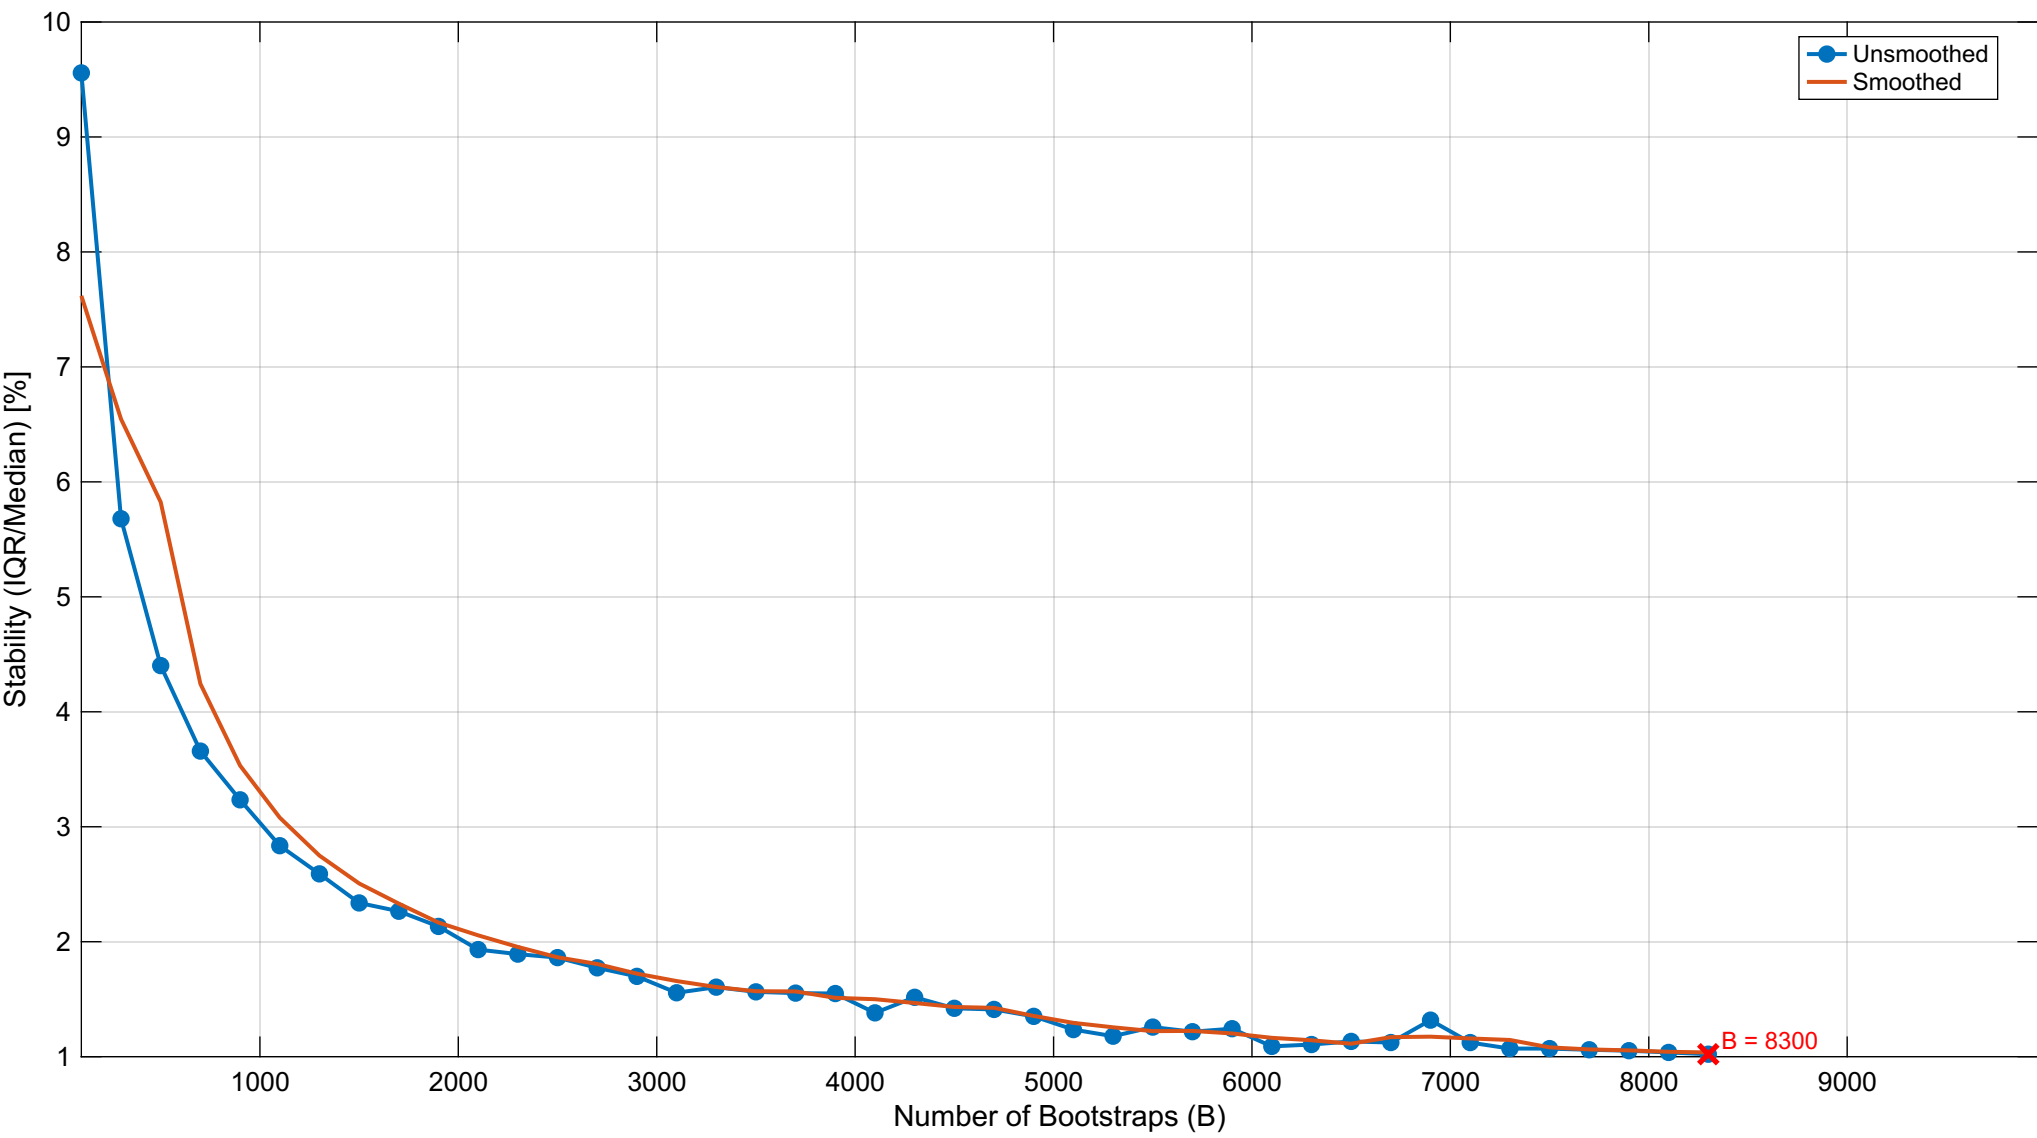

# Threshold Stability Convergence per Metric (Percentile Bootstrap)

(IQR-to-Median Ratio of bootstrap estimates;  $n = 25$  trials)

# Global Convergence of BCa-CI Stability

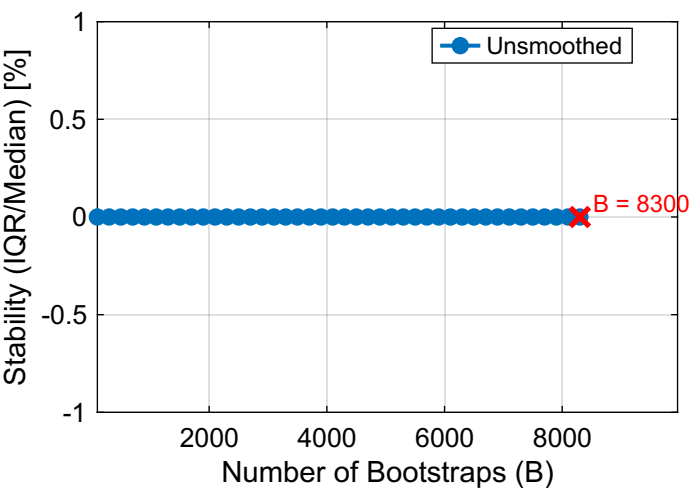

(Mean of median IQR-to-Median Ratios across all metrics; n = 25 trials per step)

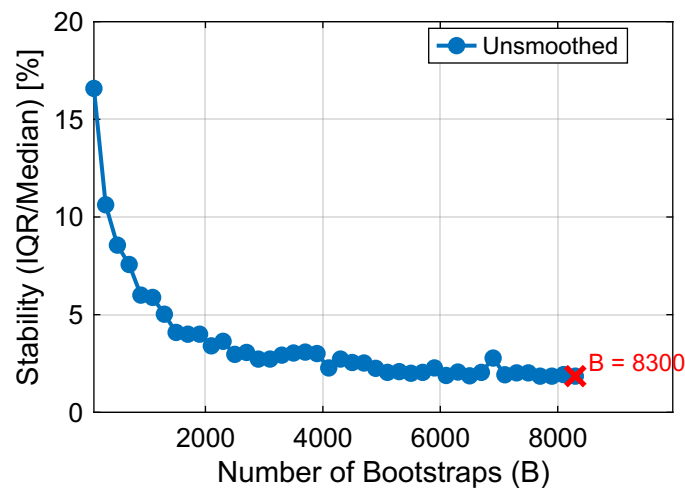

# BCa-CI Stability Convergence per Metric

(Median IQR-to-Median Ratio of pairwise comparisons; n = 25 trials)
